jute
for good

100% Softened Burlap, sustainable, 4x softer, 2x stronger, 10x premium experience, non hairy, moisture resistant, Aantifungal, skin friendly, eco friendly, biodegradeable. recyclable.

Softened Burlap jute is specially processed to make the fibers extremely soft and durable than regular jute. These bags are premium, stronger, softer and can carry more weight.

100% Genuine Leather

Japanese YKK Zippers.

Designed for smart professionals.

Imagine a bag that does not grow old. Seriously. Well thats how passionately our master artisans and designers create them. It takes time. For every product is handcrated and uniquely designed. An innovative jute fabric blended quintessentially with genuine leather. Finally, carry your goods in style.

Few of Our collaborations

Divulge dreams of a world that flourishes, sustains and becomes greener day by day. We are a company that is honor bound to preserve the chastity of our environment. Our products will reflect every aspect of bio-preservation like biodegradability, recyclability, sustainability and resilience.

Albeit all the beneficial attributes, jute struggles in comparison to its contemporaries by factors such as availability, cost of manufacture and skilled man power. We will put all our efforts to accumulate these holdings together and present you with the upshot that qualifies as pre-eminent.

Despite having a plethora of knowledge, our jute cultivators and artisans lack recognition. We will provide them the platform of appreciation and acknowledgement.
